FORMULATED FROM THE MOST POTENT SOURCES ON EARTH

Experience the most potent form of Beta Glucan on the planet. GreenPath Beta Glucan is formulated from the cell walls of Baker's yeast, which is more powerful than other Beta Glucan supplements formulated from weaker particles extracted from oats and barley. Traditional purification methods use harsh alkali and acid, which deteriorate the fragile lower-density layer essential to effective macrophage cell activation. GreenPath's patented enzymatic purification process ensures the most powerful defense against disease by leaving this delicate layer intact.

ORGANICALLY GROWN, 100% ALL NATURAL, AND FREE OF PRESERVATIVES

GreenPath Beta Glucan was designed by Mother Nature and formulated directly from natural ingredients to ensure a safe and healthy boost for your immune system. GreenPath Beta Glucan is the most effective Beta Glucan supplement money can buy with a 90% purity guarantee, compared to other Beta Glucan supplements with only 80% purity levels.

Protect yourself from disease and lower your risk of cancer with GreenPath Beta Glucan, the all natural immunity booster.
