

THE WAY TO A HEALTHY LIFE  
**Greenpath**®

# PureMotion

Naturally Rejuvenate Joint Damage

## NATURALLY RELIEVES INFLAMMATION AND SWELLING

GreenPath PureMotion is a unique blend of pure, high quality glucosamine sulfate, a natural anti-inflammatory found in healthy cartilage, and premium Chlorella, a whole food with a wide array of health benefits.

This highly effective blend gently and safely relieves inflammation and pain associated with osteoarthritis, soothes gastrointestinal damage caused by prescription anti-inflammatory drugs, and fortifies your body with essential vitamins and minerals.

## HEALTHY, SAFE ALTERNATIVE TO HARSH PRESCRIPTION DRUGS

GreenPath PureMotion is not a chemically manufactured pain reliever, but a natural anti-inflammatory that addresses the cause of joint pain by relieving inflammation and swelling.

Prescription non-steroid anti-inflammatory drugs (NSAIDs) have many harmful side-effects, including damage to the gastrointestinal tract and kidneys. GreenPath PureMotion is a healthy, safe alternative to relieve discomfort without the side effects.

## 100% ALL NATURAL SOURCE OF VITAMINS AND MINERALS WITH POWERFUL RESTORATIVE PROPERTIES

GreenPath PureMotion combines the rejuvenating power of glucosamine sulfate with Chlorella, an all natural whole food. Chlorella is nutritionally dense with protein, 100% of the amino acids essential for a healthy body, and 20 vitamins and minerals.

Its powerful restorative properties also repair damage to the gastrointestinal tract caused by NSAIDs. All natural and free of preservatives, colorings, and artificial ingredients, GreenPath PureMotion contains no sodium, glutes, or lactose. This powerful combination is a gentle way to maintain healthy joints and soothe the aches and discomfort associated with osteoarthritis.

## SAFE TO USE WITH OTHER MEDICATIONS

Because GreenPath PureMotion is all natural, it's safe to take with prescribed and over-the-counter medications.
